EarthWild Gardens

1479 Potawatomi Rd
Grayslake IL 60030
(847) 287-7477
info@earthwildgardens.com
www.earthwildgardens.com

Lake-To-Prairie Chapter
EarthWild Gardens grew out of a love for gardening and a commitment to preserving local biodiversity. We sell over 150 species of hard-to-find native flowers, grasses, vines, shrubs, and trees. We provide consultation and design services to help our clients incorporate prairie, wetland, and woodland habitats into residential and commercial settings. We are located in north suburban Grayslake, Illinois. In May and June, we're open for our plant sale at Station Square of Prairie Crossing.

Rock River Valley Chapter
Pizzo & Associates Ltd of Leland, Illinois, is dedicated to the use of ecologically sound principals in planning and development for both public and private sectors. They bring together the disciplines of planning, consulting, contracting, stewardship, and nursery in one company for their public and private land owners who are committed to the restoration of natural processes on their land to create stable, cost-effective and beautiful solutions to today's problems. The Native Plant Nursery, located in Leland, Illinois, grows 250-plus plant species native to the Chicagoland region. Most plants are grown in trays of 38, with deep, fibrous root systems that are perfect for restoration, landscaping, and naturalization. Give us a call today or check out our web site for online plant availability.

Red Buffalo Nursery

10502 Seaman Rd,
Hebron IL 60034
(815) 648-4838
kaskel@mc.net
www.redbuffalonursery.com

Rock River Valley Chapter
Red Buffalo Nursery specializes in plants native to the prairies, wetlands, savannas, and forests of northeastern Illinois and southeastern Wisconsin.

We grow plants from locally collected seed whenever possible. Plant sales occur at our nursery in the spring and fall, at farmer's markets, and by appointment. Visit our web site for a plant list, sales dates, and locations. When you are here, be sure to visit our prairie and sedge meadow restoration. We are proud of our natural area, and have protected it with a permanent conservation easement. Our services include design, landscaping, and natural areas restoration and management. When we design a garden or create a management plan, we use the original pre-settlement environment as our model. Call us to set up a site visit.

MICHIGAN

Great Lakes Native Plants

10371 Rainey Rd, Litchfield MI 49252
(517) 542-4547
drewl@glnpco.com
www.greatlakesnativeplants.com

Red Cedar Chapter
Great Lakes Native Plants is a grower and distributor of plants native to the Great Lakes eco-region. All of

our plants are source-identified, and can be shipped to arrive at your destination on the day of your choosing. We custom-grow plants for projects, and have an extensive supply of plants in inventory. Most plants are in 38-deep trays and can be grown in gallon containers. We have the capability to assemble rain garden kits for sun and shade, as well as hummingbird/butterfly kits with 10 to 12 species in each tray. We service the commercial, restoration, and retail markets.

Native Connections

17080 Hoshel Rd, Three Rivers MI 49093
(269) 580-4765 Susie
(269) 273-1367 fax
jerry@nativeconnections.net
www.nativeconnections.net

Kalamazoo Area Chapter
Native Connections offers consultation services on restoration of native ecosystems, specializing in native-landscape design and installation of prairie, wetland, and woodland ecosystems. We can help provide seed mixes of local and regional genotype. We can also provide native seedlings, small- or large-scale quantities. Wild Ones' goals are very much in line with our own personal and business goals. Large-scale producers of Michigan genotype native grasses. "Working to restore our natural world."

Wildtype Native Plant Nursery

900 N Every Rd, Mason MI 48854

(517) 244-1142 fax
wildtype@msu.edu
www.wildtypeplants.com

Red Cedar Chapter
Wildtype exclusively grows plants native to Michigan, from Michigan genotypes. We grow trees, shrubs, grasses, and wildflowers typical of southern-Michigan woodlands, wetlands, and prairies. It is our objective to propagate nursery stock with enough genetic diversity to create self-sustaining populations. Therefore, the vast majority of our plants are grown from wild seed stock. This is what we mean when we say our plants are born to be wild. Wildtype also provides ecological design and consulting services for public, commercial, and residential projects, focusing on restoration and preservation of native landscape. Services offered include: species inventory and site assessment, design and planning, and the establishment and management of native landscape. Please contact us for more information.

crystalriverinn@charterinternet.com
www.crystalriver-inn.com
Central Wisconsin Chapter

Our 1853 farmstead on the Crystal River, in the historic village of Rural, exudes country charm on "Rustic Road 23," 4 miles south of Waupaca, in Central Wisconsin. As Wild Ones members, we are committed to making as gentle impact on the Earth as possible, and to restore native-plant communities and wildlife habitat on our 11 acres. We are "Travel Green Wisconsin" certified, and have just begun our work of prairie restoration and invasives removal on this former farm. The Inn features seven guest rooms with antique furnishings, a view of the river or woods, a nook for reading or visiting, and two cabins for families. Guest rooms have private baths and fireplaces. Two rooms also have a double whirlpool. All include a full breakfast with a Southern touch, featuring our homemade local wild grape and wild plum jelly. Our non-smoking environment has free high-speed wireless Internet, meeting space for small groups, and we're open year 'round. Our land has paths through fields and woods, an outdoor, seven-circuit classical labyrinth and seven monitored bluebird houses. The wide variety of habitat on our land and the area, from tamarack swamps to hardwood uplands, invites local wildlife, such as river otter, bald eagle, and Karner blue butterfly. The area offers many restaurants and recreation opportunities: biking, birding, boating, canoeing, walking, fishing, nearby state parks, and charming small towns. A rural Wisconsin treasure.

De Pere Greenhouse & Floral, LLC

1190 Grant St
De Pere WI 54115
(920) 336-8992
niedzziw@uwgb.edu
www.deperefloralwi.com
Green Bay Chapter

Established 112 years ago, the De Pere Greenhouse and Floral, LLC, is the oldest greenhouse in Brown County. The business long has been known for its quality plants and floral arrangements, as well as its dedication to meeting the needs of local community citizens, groups, schools, and churches. Restoring

our natural landscapes is important, and we are dedicated to helping people do just that. We offer native plants for a variety of native landscapes, including bird gardens, hummingbird gardens, rain gardens, butterfly gardens, prairie flower gardens, gardens for shady areas, gardens consisting of plants known to heal, gardens with plants not friendly to deer, low growing gardens for spatially tight places, and moon gardens that "glow" at night. We grow native plants that will add beauty to your land, that will attract butterflies and birds, and that will add diversity to your land. We also specialize in growing many varieties of heirloom vegetables (seeds from Seed Savers Exchange), including many varieties of tomatoes, peppers, and herbs. This year, we are expanding our heirloom plants to include heirloom flowers.

www.formecology.com/
Madison Chapter

Formecology, LLC is a full-service landscape design, installation, and care firm, focusing on regionally inspired and sustainable outdoor-living environments for residential and commercial settings. "Formecology" is born from the idea of combining art with nature; bringing natural elements together with cultural art forms to create landscapes that are appropriate both to site architecture and nature. Our training and experience in landscape-design principles enables us to artistically combine native plants and local materials in an inherently eco-friendly way, for a wide variety of settings. Sustainable outdoor-living environments created by Formecology, LLC, provide a vision and master plan for achieving a fulfilling and rewarding outdoor lifestyle, while being mindful of the environment.

Good Oak Ecological Services

205 Walter St, Madison WI 53714
(608) 209-0607
frank@goodoakllc.com
www.goodoakllc.com
Madison Chapter

At Good Oak Ecological Services our mission is to improve the environment for the benefit of people and the natural community. We are experts in native plants and the ecology of natural areas, and we use this knowledge to create beautiful native landscapes, and restore natural areas to a more pristine condition. Our primary background is in natural areas restoration, a discipline in which we work to rehabilitate damaged ecosystems so that these wonderful places and the wildlife that live in them can thrive and be enjoyed far into the future. But these remaining natural areas alone are too small and too fragmented to provide enough habitat for our wild plants and animals. Our cities and towns are sterile, with heavily manicured shrubs, high-maintenance annuals and perennials, and chemically dependent lawns. By working with us to integrate native plants into our human landscape we can enliven your home, business, and community, while giving our wild plants, butterflies, birds, and other wildlife a place to live.

(715) 693-6446 (715) 573-4552
brayherb@mtc.net

Central Wisconsin Chapter
Shade-loving woodland wildflowers are our specialty. We have over 25 years experience growing them under artificial shade. Starting with ginseng in the early '70s, we branched out into goldenseal, and ultimately into woodland wildflowers native to the forests of the upper Midwest. Our flowers are grown almost entirely from our own stock or from seeds gathered in the woods around our farm. We have been able to amass a nice collection of plants without dislodging the parent sources from their native habitat. We think you will find these nursery-grown plants to be vigorous and well-suited as potted plants for nursery sales, for private landscaping, or for commercial-restoration projects. We ship bare-root, for overnight or next-day delivery, primarily in spring or fall, but at other times by request.

Johnson's Nursery Inc

W180 N6275 Marcy Rd

Green Bay Chapter

NES Ecological Services is a committed group of ecologists whose diverse backgrounds include restoration ecology, wildlife management, and wetland ecology. Located in Green Bay and Madison, NES serves clients throughout Wisconsin and the upper Midwest. Since 1996, we have provided native-habitat restoration services to municipalities, lake management districts and associations, the WDNR, the USFWS, and individual landowners.

These services include planning and design, material installation, monitoring and maintenance. NES ecologists use their knowledge and experience with Wisconsin's native-community types to design and implement aesthetically pleasing, natural landscapes that utilize plant species native to the site's region. Each restoration project is catered to the individual or group based upon their needs, experience, and desire to be involved with the "hands-on" portion of the project. Visit our web site to review a few of our most recent projects along with a complete list of all the services we offer.

Northern Native Plantscapes

Central Wisconsin Chapter

Since 1972, Prairie Nursery has been dedicated to improving and rebuilding the environment by encouraging ecological gardening using native plants for soil, water, and habitat conservation. Our mission is to preserve native plants and animals by helping people create attractive, non-polluting natural landscapes that can support a diversity of wildlife. Prairie Nursery specializes in hardy native flowers and grasses for prairies, woodlands, and wetlands. We have a large selection of plant gardens and seed mixes for virtually any soil, moisture, or light conditions. Prairie Nursery also offers professional consulting and installation services. Get your free prairie nursery catalog and growing guide. Visit our retail store for select plants, seeds, and books. Explore our extensive new demonstration gardens. Guided tours are the third Saturday of June and August. Self-guided tours any time.

Taylor Creek Restoration Nurseries (TCRN) has over 25 years of experience growing local genotype native plants and seed for use on many high-profile restoration projects throughout the Midwest. We now offer native trees and shrubs in addition to over 400 species of native plants and grasses for native-landscape and restoration projects. Our new RPM trees and shrubs are available in 3-gallon containers, and have excellent root mass for high survival rates and rapid growth. We also offer a new, speedy dropship service for small plant orders during spring and fall. TCRN is a division of Applied Ecological Services, Inc. an ecological restoration firm offering consulting and construction services: native landscape design and construction, ecological review, restoration design, and bioengineering for stream-bank, shoreline, and slope restoration.

 North Park Village Nature Center Chapter
 The mission of the Chicago Botanic Garden is to promote the enjoyment, understanding, and conservation of plants and the natural world. The Garden continues to strive to meet the lofty goals set more than a century ago. The Chicago Botanic Garden, with its world-renowned plant collections and displays, is one of the country's most visited public gardens and a preeminent center for learning and scientific research. The 385-acre Garden features 24 display gardens and four natural areas uniquely situated on nine islands surrounded by lakes. One of the great treasures of the Chicago Botanic Garden is the Lenhardt Library. Located in the Regenstein Center, it is open to the public. The Lenhardt Library strives to provide plant-science resources and accurate information to users by collecting, organizing, preserving, and sharing subject-specific materials for current and future use, while supporting all objectives of the Chicago Botanic Garden.

Mid-Mitten Chapter
 Chippewa Nature Center is private, non-profit organization whose mission is to inspire people and institutions to protect the natural world. The Center includes 1,200 acres of woodlands, wetlands, rivers, and upland fields. There are more than 15 miles of hiking trails open daily, including the Chippewa Trail, a 3.5-mile recreational trail to downtown Midland. A wide variety of programs are offered year-round for children, families, and adults, along with school programs, Nature Preschool and Summer Nature Day Camp. CNC is also home to a complex of three restored log buildings, encouraging visitors to step back in time. The Center offers free admission daily, except during major events. A native-plant sale held each spring offers native genotype plants, along with advice and help with planning natural areas. Wildflower and fungi hikes throughout the year, and the Garrett Arboretum of Michigan trees and shrubs encourage participants to use native plants. Lots of other hikes, field trips, and workshops are also part of the daily schedule. Visit our web site for current program information.

 Kalamazoo Area Chapter

The Kalamazoo Nature Center is a not-for-profit organization whose mission is to inspire people to care for the environment by providing experiences that lead them to understand their connection to the natural world. Our Community Wildlife Program works with businesses, golf courses, schools, and private landowners to enhance wildlife habitat through native landscaping. We can assist with site evaluation, plant selection, design, and installation. Our Great Lakes Ecological Program offers services such as site evaluation, management plan development, and implementation. Specializing in invasive species control and prescribed fire, the Great Lakes Ecological Management team has worked with government, non-profits, and private landowners to implement large- and small-scale restoration activities.

WILD ONES CORE VALUES

Respect: Our mission stems from our respect for the other species on this planet and future generations. We will treat each other – our staff, members and volunteers – with respect at all times. We respect different tastes in landscaping but also ask that others show respect for the common good by considering how they can conserve resources and improve the environment via the inclusion of native plants in their landscapes.

Personalized support: Our members value the opportunity for direct contact with other Wild Ones members and the ability to “learn locally.” This sets Wild Ones apart from many similar organizations. Networking and education are our most important functions.

Appreciation: To keep our dues low and our efforts local, Wild Ones is a grass-roots organization that runs primarily on volunteer effort. We will continue to rely on volunteers to carry our mission forward. We will support our volunteers and recognize their efforts, especially those in volunteer leadership positions.

All members are valuable members: At the national level our income is largely derived from member dues and donations. We appreciate all members, respecting that everyone has varying priorities and demands on their time which impact their ability to volunteer.

Fresh and adaptable: While we stay focused on our core abilities and goals we will continually look for and solicit ideas from our Board, our members and honorary directors for new strategies we might use to further our goal of promoting sustainable landscape practices.

St. Louis Chapter

Founded in 1859, the Missouri Botanical Garden is the nation's oldest botanical garden in continuous operation and a National Historic Landmark. The Garden is a center for botanical research and science education, as well as an oasis in the city of St. Louis. The Garden offers 79 acres of beautiful horticultural display, including a 14-acre Japanese strolling garden, Henry Shaw's original 1850 estate home, and one of the world's largest collections of rare and endangered orchids. For over 151 years, the Garden has been an oasis in the city, a place of beauty and family fun – and also a center for education, science, and conservation.

OHIO

Civic Garden Center

2715 Reading Rd, Cincinnati OH 45206
(513) 221-0981

vciotti@civicgardencenter.org
www.civicgardencenter.org
Greater Cincinnati Chapter

The Civic Garden Center is a non-profit horticultural resource dedicated to "building community through gardening, education, and environmental stewardship." It is an oasis in the city – eight beautifully landscaped acres open daily to visitors at no charge, and located 2.5 miles from downtown Cincinnati. Volunteers donate their time to maintain the grounds, and they and others provide financial support to the organization that was founded in 1942. Our cornerstone programs – Neighborhood Gardens touch 23 communities with over 47 active gardens. Compost Kids and Summer Sprouts programs introduce young people to gardening. The Civic Garden Center provides education and information to individuals, schools, organizations, and businesses through its Horticulture Helpline, library, classes, hands-on workshops, tours, special events, and outreach programs. Visit the Civic Garden Center, Monday through Saturday from 9:00 am - 4:00 pm.

WISCONSIN

Appleton Neighborhood Voice

802 N Appleton St, Appleton WI 54911
nmmsabai@hotmail.com

Fox Valley Area Chapter

The Appleton Neighborhood Voice's mission is to preserve, promote, and enhance the character, beauty, safety, and overall livability of the neighborhoods surrounding historic Columbus School and Zion Lutheran Church, in the city of Appleton, Wisconsin. Our purpose is to preserve the neighborhood's intrinsic value as an area of historic homes, to work with surrounding businesses to promote and enhance a sustainable lifestyle, to provide a forum for discussion of neighborhood issues in order to promote the community, its activities and interests, to work with other neighborhood groups in the city of Appleton to address common problems and projects, and to involve as many of our citizens as possible in these efforts.

Green Lake Conference Center

valariepowell@gllcc.org

www.gllcc.org

Fox Valley Area Chapter

Beautifully situated on 1,000 acres along the shores of Wisconsin's deepest lake, Green Lake Conference Center is a premier Christian conference and leadership training center. We also host retreats and conferences for other groups including universities, school environmental education classes, and non-profit companies. We are a favorite destination for family reunions and vacations. We encourage our visitors to take advantage of the ample opportunities our grounds provide for a wide variety of outdoor activities during their stay. We are very proud of our 57-acre native prairie. The Dawson Prairie, as it's known, began development in 1990, on land that had been farmed for many years. Final prairie planting was completed in 2001. The prairie is ideally located between our camping areas, youth center, and historic 1850s homestead log cabin. The Dawson Prairie has steadily gained in popularity as its development progresses, with increased awareness and appreciation for the fact that the site is populated entirely with native plants. In addition to the groups who use and enjoy Dawson Prairie on

a casual basis, many area schools and community organizations have made it a supporting part of their curriculum. Through day visits and consecutive sessions, the Prairie serves as a living classroom in environmental education. We hope to increase this use through our alliance with Wild Ones.

Heckrodt Wetland Reserve

1305 Plank Rd PO Box 554
Menasha WI 54952

(920) 720-9349
heckrodtwetland.tk@tds.net

www.heckrodtwetland.com
Fox Valley Area Chapter

Heckrodt Wetland Reserve includes 76 acres of forested wetland, wetland meadow, open water, and upland field communities. The wheelchair- and stroller-friendly 3-plus-mile trail system includes a boardwalk that allows access to the wetland without getting wet feet. Facilities include a nature center with indoor living wetland and live reptiles, amphibians, and fish, as well as mounted specimens of Wisconsin mammals and bird species. Educational programs are provided for schools, day cares, special focus groups, and the general public. Our goal is to provide visitor education while fostering an ethic of environmental stewardship in a fun, hands-on atmosphere.

Outagamie County Housing Authority

3020 E Winslow Ave, Appleton WI 54911
(920) 731-9781x201

jlincoln@outagamiehousing.us
www.outagamiehousing.us

Fox Valley Area Chapter

The Authority's primary mission is to assist county residents in meeting their housing needs. It serves by offering subsidized housing to qualified applicants, and, through its staff, continues to explore housing options for all segments of the community. It accepts responsibility for the coordination of services to housing development residents, and actively cooperates with local agencies whose objectives parallel or impact upon its own. The authority is committed to search for housing alternatives, and to promoting sustainability in their endeavors.

The Bridge-Between Retreat Center

4471 Flaherty Lane, Denmark WI 54208
(920) 864-7230

info@bridge-between.com
www.bridge-between.org

Green Bay Chapter

The Bridge-Between Retreat Center, established in 1987, is nestled in the countryside on a 100-year-old working farm. The Bridge's mission is to provide a contemplative place in which to deepen relationships with God, self, neighbor, and Creation. We serve both soul and soil, striving to reverence Earth in all that we do – building a sustainable future. The center offers day and overnight retreats for groups and individuals, spiritual direction, workshops, special events, and off-site speaking engagements. All are welcome. Come join in a family-style meal, learn, relax, pause, and appreciate all of Creation's sacredness. Volunteer opportunities abound.

Are You Ready for a Wild Idea? Join Wild Ones as a Business Member or an Affiliate Not-for-Profit Organization Member Grow Your Organization Along With Wild Ones.

Wild Ones: Native Plants, Natural Landscapes promotes environmentally sound landscaping practices to preserve biodiversity through the preservation, restoration, and establishment of native-plant communities. Wild Ones, a voice for the natural landscaping movement, was established in 1979, and now has more than 50 chapters in North America.

Wild Ones events include seed gathering, seed exchanges, plant rescues, plant sales, speaker presentations, bus tours, garden tours, conferences, and community projects. New chapters are forming all the time. For a current listing of chapter locations, visit our web site or contact us directly.

Wild Ones: Native Plants, Natural Landscapes is a not-for-profit educational organization. Your Business Membership or Affiliate Membership donation is fully tax-deductible.

Benefits of membership for Wild Ones Business Members and Affiliate Members

Join this growing movement today. As a Wild Ones Business Member or Affiliate Member, your organization is entitled to these great benefits:

- Acknowledgement in the *Wild Ones Journal*.
- Annual listing in the *Wild Ones Journal*.
- Listing on Wild Ones web site (www.for-wild.org).

And to share with your employees and clients:

- Extra copies of the *Wild Ones New Member Handbook*.
- Extra copies of the bi-monthly *Wild Ones Journal*.
- Copies of Wild Ones educational brochures to share with clients and the community.
- Wild Ones Recognition Decal for your office or shop window.

Your Business Membership or Affiliate Membership entitles you and your organization to participate in all Wild Ones national and chapter activities, either locally or across the United States – a great networking opportunity.
